

Factsheet

Our Mission

We use best-in-class enzyme engineering and production technologies to deliver superior biotech solutions enabling innovative industrial applications for partners in food and pharma.

Our Vision

We want to develop c-LEcta into a recognized, global leader for high-performance enzymes promoting human health.

Products

c-LEcta supplies over 400 customers in more than 40 countries with biotechnologically manufactured quality products.

Applications

Pharma

Gene therapy
Cell therapy
Medical Products
Vaccines
Patented chemical drugs
Generic Drugs

Food

Food & Beverages
Single cell proteins
Dietary Supplements
Phage production
Food Enzymes
Yeast extracts

Other

Feed Enzymes
Biofilm degradation
Cosmetics

Technology

c-LEcta uses its proprietary technology platform ENESYZ to develop customised enzymes and microbial production strains that meet the requirements of a wide range of manufacturing processes in industry. It has been continuously developed since its foundation in 2004. In the last 18 years, we have carried out more than 50 enzyme engineering projects with a success rate of >90%.

Why work with c-LEcta?

We meet the highest quality requirements of our customers in the pharmaceutical and food industries throughout the entire product life cycle.

c-LEcta works in collaborations with industry partners to jointly develop new products and bring them to market.

As one of the leading technology companies for products manufactured by fermentation, c-LEcta also offers its skills to the industry as a production partner.
